IVA | H.265 | WDR | 2MP@30fps | Smart IR | IK10 | IP 66

Overview

i-View has designed the DM-2MIPM12 IVA(Intelligent Video Analytics) IR Dome Network camera with the processing power needed to support high-performance edge analytics. This makes it possible to create scalable intelligent video solutions for a wide range of video surveillance systems with varying requirements. The video analytics include several integrated video analytics that runs in the camera such as Cross Line Detection is a trip-wire application that detects objects crossing a virtual line, making it possible to automatically detect intrusions and to trigger alarms accordingly.

i-View DM-2MIPM12 also featuring a detailed 2-Megapixel resolution with H.265 high-efficiency compression technology, offering 30 fps frame rate, which allows the user to fully utilize the high definition video. The ePTZ function lets users zoom in and focus on a region of interest (ROI) in the camera view with only a few clicks of a mouse, the camera comes with a removable IR-cut filter and 15 meters IR LEDs to provide great clarity and contrast 24 hours a day, and the IP66 rating provide a robust solution suitable for demanding outdoor environments.
