

# CarFinder®

## FIND MY CAR KIOSK

**Quick search | Fuzzy comparison | Touch screen | Car image display | eMap location guide**

The CarFinder® Find My Car Kiosk is a query parking location machine with a touch screen and OSK (On-screen keyboard). The fuzzy search function makes finding your car quick without entering a complete license plate number. After confirming the vehicle image, the screen will indicate the CarFinder kiosk and your car's relative position on the eMap. The parking guidance system is paired with the CarFinder® Find My Car kiosk, which allows the driver to quickly find the car's parking location and display the relative position in the parking lot. Forget the parking position and cannot find out the vehicle is no longer the problem of the customers of your parking lot.

### Features
